50 Cents a Year in Advance.

We are here to help Clay City, the Surrounding Country and Ourselves.

J. E. Burgher, Publisher.

VOL. XIV.

CLAY CITY, KY., THURSDAY, AUGUST 19, 1909.

NO. 33.

## Bridge Completed.

The highway bridge crossing the river at Waltersville has been completed. The bridge company nailed it up when finished waiting for the council to accept the same. The council refuses to take any action and there it is. Saturday night some one tore down the fastenings and travel has been going over since. The bridge is of untold value to Clay City and much credit is due Brodhead-Garrett for their effort in getting it back soon as possible.

## Clean-up Day.

The proclamation of Mayor Warmouth for all to clean up their premises in the city was observed to some extent but it did not reach quite far enough, and it is our opinion nothing will except a rigid enforcement of the law as it regards filthy premises.

## Convention Called.

The Democrats of the 23rd Judicial District will hold a convention at Campton, August 24 to nominate candidates for Circuit Judge and Commonwealth's Attorney. Mass Conventions will be held in county seats August 21st to select delegates to said convention.

The hot weather the past week has been the warmest of the year. The thermometer rose above a hundred several days. The good rains the last of the week insures excellent corn crops where it was not earlier drowned out in low places.

N. B. Devary, who killed Harvey Ewen in Clark county last week, has had his examining trial and held over under \$3,000.00 bond which he gave.

Quite a number from this county attended Mt. Sterling court Monday, and all report trade brisk and good.

## Mail Order Groceries.

A visit made a short time ago by the health officers of Chicago to a factory wheae canned goods were prepared for the mail-order trad, disclosed the fact that it was a rank artificial food factory. Tomato catsups were made from pumpkin pulp; fine strawberry and raspberry jam was made from glucose, starch and the only evidence of fruits were a lot of dried apple peelings and cores, which were used in a base. The seed supposed to be the berry seeds, were grass seed; the natural coloring was coal tar dyes, and in the whole thing was a fraud factory from start to finish. Several thousand cans of fruit were found. These were old, several years, perhaps, and the labels dirty, showing their age. From these their labels were removed and new ones put on. These goods were dead stock on the manufacturers' hands, until bought for a mere song by the mail-order concern.—Ex.

## Sheep Quarantined.

The government has quarantined against Kentucky sheep on account of 'scabies' which is prevalent in some counties. The owners of sheep in these counties refused to dip the sheep and help eradicate the disease according to the instructions of the State Board of Health, so the government issued a quarantine. No sheep can now be shipped from this state so they all go now to Covington and Louisville.

Mule and pony races daily, with a fox chase on Tuesday and Saturday. Weber's great military band, of Cincinnati, will furnish the music. A clean moral and up-to-date midway will run, day and night. ## Ack to Old Kentucky.

Mr. and Mrs. John Kirk, who moved to Oklahoma last fall, have returned to Clay City. Messdames T. J. Kirk and P. B. Kirk also returned from Oklahoma Tuesday, Messrs. T. J. and P. B. Kirk will arrive here in a short time to reside. We extend a most hearty welcome to the good people returning to our city.

## Farmers' Institute.

The State Farmers' Institute of which the Times made mention last week will be held in this county Oct. 18 and 19 at Stanton. Every farmer in the county should attend. The Department has favored this office with a bulletin giving outlining topics to be discussed and places and time of each meeting.

The hot prices at the hot weather sale at Mrs. Williams' are making the goods move fast. If you are not getting your share of the bargains, it is your own fault.

It was Louis Fox, of Cincinnati, who tried to see how close he could row his sweetheart to a dam on the Miami river. The boat went over and drowned them both.

Mrs. Nannie Shimfessel and family, of Vaughn's Mill, will sell out and move about Sept. 30, to Phoenix, Ariz. to reside.

"Liberty Brand" Hats for Men and Boys in all the new shapes and shades. Hardwick & Co., Stanton.

## NOTICE---BOARD OF HEALTH.

Typhoid fever is abroad in the land. Filth and garbage, cess-pools and stagnant water are incubators for the fever germs. Let everybody clean their premises and thus prevent the source of disease and check its spread and progress.

Done by order of the Board, Aug. 5th, 1909.

Jno. D. Atkinson, Sec'y.

## Married.

Miss Lucyann Barnett, daughter of Joseph Barnett was married at the home of her father near Spout Spring in this county Thursday, August 12th to Geo. Abney.

The Times acknowledges receipt for season ticket to the Montgomery County Fair at Mt. Sterling August 31, Sept. 1, 2, 3, and 4. We hope to be able to attend this great fair as many other of our people will do.

J. W. Womack, Deputy Head Consul of Modern Woodman of America, who instituted a camp in this city a few weeks ago, has since then instituted a camp at Log Lick with several members.

Fifty counts in Kansas did not furnish a single criminal to the penitentiary in 1907. Prohibition "does something if it doesn't prohibit."

The heavy rains Sunday in Mason county did great damages, among the loss is the sweeping away of three bridges in the county.

The school building is being repainted, inside and out, a new well is being sunk and other improvements are going on.

## The Piqued Subscriber.

Every once in a while an official gets sore because a newspaper criticises his conduct and forthwith stops the paper under the apparent impression that he is retaliating by crippling the income of the publisher. It may be a mistake of the publisher in thinking he has been done a favor, but as a rule whenever a newspaper loses one subscriber on account of pique there are usually two or three others gained for the very reason that the one feels aggrieved. The experience of the editor of this paper is such that he considers it a lucky omen to have a subscriber walk in and order his paper stopped because something it contained did not suit him. He is convinced that he has said something, and, whether or not he is always right, the broad-minded and intelligent subscriber will recognize the fact that it is only the negative quality in life that never crosses the feelings of anybody.

## Bradley Wins Suit.

The Court of Appeals has sustained the decision of the Powell Circuit Court in the Louie Bradley insurance case. Under this decision Mr. Bradley will get the \$1,000 life insurance on his brother, Kinney Bradley, who died several years ago, and the case has all the while been in the courts. Enough cost has occurred to pay off the claim.

## This Sale Continues.

The hot weather sale at Mrs. Williams is providing a general public benefit sale. Many dollars are being saved by the buying public who are visiting this store during these hot days. If you are not one of the satisfied customers you should be.

## What Good Roads Do.

They make poor land more valuable.

They make it easier to market the crop.

They will cause an increase in educational interest.

They will bring the children nearer the school.

They will bring the different neighborhoods closer together.

They will widen the outlook upon business possibilities.

They widen the social sphere of the average resident.

They mean development in every way.

Let us work to have our roads improved.

A good road makes driving a pleasure.

It saves wear and tear on your buggy.

It is easier on your stock.

You will go to town and learn new points in your business.

## The President's Salary.

Congress has added \$25,000 for traveling expenses to the President's salary, making his total yearly salary \$100,000. When his salary was increased from \$50,000 to \$75,000 the people were given to understand that he would pay his own traveling expenses. It seems the people are at the mercy of the salary grabbers.

Jess Cousley, of Wolfe, was thrown from a mule he had been working on a farm in Clark county. His foot hung in the gear and he was dragged and kicked to death.

## Remedy for Ants.

Here is a remedy that our housekeeper readers who are troubled by ants may try. We clip it from an exchange: "If ants or other insects are troublesome, sprinkle the floor and shelves with powdered borax and sugar. They eat so much of the sweet mixture that the borax poisons them. Red ants will leave if you welcome them with sulphur. Put the sulphur in little bags and lay on the shelves or drawers which they visit."

### School Days.

Can anything be more pleasant in busy hum-drum of after years than to permit your minds to wander back to the days of school life; the sweet memories and incidents that will come up, the smiling faces and pleasant countenances; the old school house door that has so often admitted you, swinging back and forth on its hinges, the very walks speaking forth of happy hours; while at your side stands the noble teacher who watched you every move and was as much interested in your success as you were yourself. As these recollections come back to you whose school lives have been spent in this community, your eyes will moisten as you realize those days are now gone forever. Never again will those days return. You who for so many months and years have been like one family and participated joyously together in the school room and play-ground have doubtless pledged loyalty and faith to the school. You now step out of school life into life's school and will be scattered far and wide, but the memories of your school days will ever form the brightest links in your chain of thought.

Titles and money may be inherited, but a good reputation is something that anybody can get by hustling for it.

## A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts. He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

### Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.
